

newDEMOCRACY

- Citizens are seeking public decisions that are less adversarial and less short term in outlook.
- The new**democracy** Foundation researches and publishes alternative democratic methods that seek to deliver this.
- We pursue alternatives more likely to identify common ground, end the continuous campaign and return representatives to a focus on issues, not opinion polls.
- We are not a thinktank – we fund practical trials.
- We don't need better politicians. We need a better system.

WHO WE ARE

- Non-partisan, non-issue based.
- Research Foundation
- Leading academics, practitioners and former politicians.
- Present all alternatives for innovation, fund their practical trial and research their impact.

DELIBERATIVE PRINCIPLES

✓ Critical elements:

Random Selection

Time

Information

Clear remit and authority.

Ask a question, don't sell an answer.

✓ How can we visibly earn public trust?

newDEMOCRACY
